

The CatGame

Release Notes v1.2.0

May 15, 2020

KingV Entertainment

Vincent Harriott

The CatGame™ is a challenging survival game with a simple strategy: keep moving! This game improves your motor skills, hand-eye coordination, and has a child-friendly interface. It's great fast fun!

The latest version of The CatGame features a reduced code base. Less code plus more functionality equals better game performance!

What's New in Version 1.2.0

New Features

- Collisions between Friskee and all other objects are now more precise.
- The orange box falls at a slightly faster speed. This was implemented from numerous user feedback.
- Sound effects have been improved.
- The lengths of the Level 2 platforms have been slightly increased. This was implemented from numerous user feedback.

Bug fixes

- Fixed. It was sometimes unclear whether or not Friskee was hit by the red box. Now it's clear!
- Fixed. When the game starts there was sometimes the bottom portion of the blue box stuck at the top of the screen under the red ceiling. It's gone now.

What's Coming in Future Releases

- You will be able to win an extra life for Friskee by scooping up a cat treat, which will randomly appear on the platforms.
